Jonesboro AR 72404  
870-268-6393 : Cell 219-1019

Installation Instructions 8-1-20

### **Model SPX-SP1**

### **Push Button Docking Station Accessory Switch**

## **Steps needed to install Switch Unit.**

1.- This Push Button Add-On Switch is illuminated Blue and will work with any Spyder Extras Docking Station as shown below.

2.- The wiring is simple. The Black wire is ground, The Red wire is the power source and the White wire is the output to your device to be switched. There are many uses for the switch from LED Driving lights to Audio Accessories.

We thank you for purchasing one of our Ryker Kits. Today we know the needs for Stylish Accessories and solved that demand with products that compliments the design of your Ryker®!
